

Fox Flying Club, Inc.

Policy Manual, Rules and Regulations

These Rules and Regulations are adopted and enforced by a majority vote of the Fox Flying Club Board of Directors and shall operate within and subject to the By Laws of the Club.

I. The mission of the Fox Flying Club is to promote SAFETY, EDUCATION, FELLOWSHIP and the enjoyment of FLYING.

- A. Within the mission of Fox Flying Club, the Rules and Regulations have been written in a good faith effort to comply with generally accepted flying practices including those required by the insurance carrier.
- B. Upon joining Fox Flying Club each member is responsible for following the Rules and Regulations and each member understands that they assume any risk and liabilities that may result when not following the Rules and Regulations.

II. Membership

- A. Recognizing that not all Club Members are actively flying, Members with a current check-ride card are limited to a maximum of 45 while the total number of Active Members is limited to sixty.
- B. To further the Club's mission, each member is expected to participate and contribute to Club activities
 - 1. Attendance is required at either the monthly Board or Membership meetings, which are normally held at the DuPage Airport Flight Center at 7:30 p.m. on the following days:
 - a. Board meetings on the first Thursday of each month.
 - b. Membership meetings on the second Thursday of each month.
 - 2. Members are also expected to contribute their time and talents in maintaining and cleaning club aircraft and facilities or in other ways.

C. Member Classes and Types:

- 1. Active Member. Generally student and FAA certified pilots.
 - a. Pays the full membership fee and full monthly dues and has full membership privileges.

- b. Active Members serving on the Board as Treasurer or Maintenance Officer pay no dues and have full membership privileges.
2. Associate Member. Generally, a member that has a special relationship to the Club and may pay reduced membership fee and/or reduced dues and has reduced privileges. The total number of Associate Members shall be limited to thirty-five percent (35%) of the total number of Active and Associate members.
- a. Family Type - a spouse, son or daughter, or parent of an Active Member who is living at home - pays the membership fee and reduced dues- has reduced membership privileges.
 - b. CFI-Only Type - generally a Certified Flight Instructor as defined in Title 14 of the Code of Federal Regulations (14CFR, hereafter referred to as the FARs (Federal Aviation Regulations)) - no membership fee, pays reduced dues. May not fly aircraft for personal use or for any other purpose other than instructing members and providing member semi-annual check ride. May be elected to the Board.
 - c. Service Type – Non-active members that serve on the Board and pays reduced dues.
 - d. Mechanic Type - generally aircraft mechanics as defined in the FARs that pay no membership fee and reduced dues – have full membership privileges. May use airplane for personal use.
3. Inactive member - a former Active Member on leave of absence who does not have flying privileges - pays reduced dues (has, at one time, paid the membership fee).
- a. Members desiring to become Inactive must notify the Membership Officer or Treasurer by signed letter and have their leave approved by the Board.
 - b. Inactive members desiring to return to Active member status must request readmission through a written request to the Membership Officer and pay any changes in the "one time" membership fee. Readmission as an Active member is by Board approval. Generally, returning from being temporarily an Inactive member during winter months will not be approved. In the situation of a waiting list for admission as an Active member, a returning Inactive member has priority over new members.
 - c. Member Emeritus – Special recognition given to inactive members who have provided long and faithful service to the Club - pay no dues

- D. Members are required to provide a declaration of citizenship and current copies of their driver's license, pilot certificate, medical certificate and biennial flight review to the Membership Chairman upon request.
- E. Prior to acceptance into the Club any applicant for membership must be interviewed by three Board members and may be required to complete a test demonstrating familiarity with Club Bylaws and Rules.
- F. Minors, persons 17 years old and younger, may join the Club provided that, prior to acceptance into membership, the minor must be interviewed as noted in paragraph E along with a responsible parent or legal guardian.
- G. Club membership is non-transferable.

III. Costs - The Club is a not for profit organization with fees and dues that are established by the Board.

- A. Each member is expected to pay all amounts due by the 25th of the current month. Members in arrears are subject to fines, suspension of flying privileges, deposit requirements and/or loss of membership.
 - 1. The Club's fixed costs include insurance, loan payments, hangar and tie down fees, scheduling and registration fees. These costs are primarily paid for by monthly dues.
 - 2. Aircraft operations, maintenance, fuel, oil and reserves for overhauls are paid through hourly aircraft rates based on tach time.
 - 3. The initial membership fee (non-refundable) is used for upgrades or other needs as determined by the board.
 - 4. Current Club membership fee, dues, and wet hourly rates are given in Schedule A.
 - 5. Fuel on cross-country flights must be purchased by the pilot.
 - a. Reimbursement is credited to the member's account by the presentation of the original receipt for the fuel purchased labeled with the aircraft "N" number, marked "paid in full" and signed by the member.
 - b. All receipts must be submitted within 120 days in order to obtain credit.
 - 6. The Club does not reimburse for landing fees, tie-downs, hangar fees, deicing, preheat or jump starts.
 - 7. Pilots are expected to refuel aircraft at the DPA self-serve pump upon return from their flights.

- a. To discourage fueling from the fuel truck at DPA, the Club will reimburse pilots \$.50/gallon less than the fuel truck cost.
 - b. The only exception will be malfunction of the self-serve pump. Members must record in the log malfunction of the self-serve pump.
8. A fuel surcharge may be added each month whenever the cost of fuel exceeds the base fuel price used to calculate the hourly rate. Such a charge will be calculated based on 9 GPH and the difference between the base fuel price and the most recent DPA fuel price billed to the Club.
 9. Active members in good standing who refer a new Active member will be awarded one hour flying credit towards any aircraft to be applied to their statement, after the new member has paid all initial fees.
- B. Fines may be levied for the violation of the Rules and Regulations of the Fox Flying Club as provided for in Schedule B.
- C. Fines are for each occurrence and are cumulative. Should any member feel that the fine is unjust, they may appeal in writing to the Board of Directors, according to ARTICLE XII of the club's by-laws.
- D. The Club will provide credits to Active dues-paying members who participate in activities and work that benefits the club. Credits will be administered by the person in charge of each activity. Normally this will be the Treasurer [meeting attendance], Vice President [aircraft cleaning] or Maintenance Officer or crew chief. Specific list of identified credits is given in Schedule B.
- E. Because the Club is a Non-Profit entity all monies paid into the Club are considered non-tax-deductible contributions. In order to preserve the Club's Non-Profit status, the treatment of any monies paid into the Club for any reason as an equity interest is strictly prohibited.

IV. Scheduling - with our aircraft being shared by many individuals, members must be considerate of each other in scheduling and using aircraft.

- A. Schedule Master is used for all aircraft reservations
1. Each member is given a User Number and Personal Identification Number (PIN) which is used for access.
 2. Toll-free telephone access is 800- 414-6114.
 3. Internet access is (<http://www.schedulmaster.com/smlogin.htm>)
- B. Scheduling rules (Active, Associate, CFI-Only and Service Members)
1. Each member in good standing may schedule up to three reservations periods.

2. Members with at least a private pilot rating may schedule a plane for up to twelve days on a single schedule (only one full weekend is to be included).
3. Any member more than thirty minutes late for their scheduled time forfeits the remainder of their reservation period to any member desiring it.
4. Adjust and/or Cancel schedules or portions of schedules you will not fly as soon as possible.
 - a. Members will be subject to a penalty of one hour's time if they:
 - i. Fail to fly during their schedule, or
 - ii. Cancel more than 30 minutes after the start of their schedule.
 - a. If the cancellation is due to weather, cancel/reschedule for a later time. Note in the log if you're at the airport or inform the Treasurer promptly.
 - b. If the cancellation is due to mechanical problems, note in the log, prepare a squawk and/or contact maintenance personnel, cancel the schedule and notify affected subsequent scheduled users.
 - b. If your schedule is overridden by a maintenance schedule you still must cancel your schedule to avoid the possibility of a fine if the maintenance is completed early.
 - c. As a courtesy to other members, cancel schedules by phone from DPA when returning.
5. Members flying local flights are expected to fly a reasonable part of their scheduled time.
 - a. Daily minimum flight time requirements of 1 hour for each weekday and 2 hours for Saturday or Sunday exist to improve utilization and sharing of our planes
 - b. Daily minimum times are applicable to members with reservations:
 - i. Of six or more hours in a 24 hour period.
 - ii. For each 24 hour period from the start of a multi-day schedule.
6. Members are expected to return aircraft on time.

- a. Any member not returning an aircraft on time (except for mechanical or weather related reasons) may be subject to disciplinary action and/or fines.
- b. If a member becomes grounded away from DuPage Airport for any reason, including weather, they must advise the President or other Club Officer and members whose schedules will be affected.
 - i. Generally, it is the member's responsibility to return the aircraft to home base.
 - ii. The daily minimums will not apply until the aircraft is repaired, or the weather between the airport of departure and home base is flyable, with respect to the limitations of the aircraft and of the member involved.
 - iii. The aircraft must be returned on the first flyable day by the member or at their expense.

V. Flight Limitations

- A. Members of the Club shall observe all existing Federal Aviation Regulations, State, Local Airport, and Club Rules and Regulations.
- B. Only Active, CFI-Only Associates, and Board approved CFIs may be Pilot In Command of club aircraft. Neither non-members nor Inactive Members may occupy the left front seat.
- C. Club aircraft shall not be operated in a careless or reckless manner or without preflight inspection, thorough flight planning, or with disregard for weather conditions considered to be safe for the level of experience of the member.
- D. No member should execute unusual maneuvers that may cause structural damage to the aircraft, other than those maneuvers required in flight tests for any airman certificate.
- E. The aircraft shall be operated only from those landing areas that are recognized as public or private airports. Operations from other landing areas will be permitted only upon prior approval of the President or Chairman.
- F. With the exception of club instructors or Board approved CFIs providing instruction to members or pinch-hitter instruction (VI. H.), no member may operate club aircraft for compensation or hire or as a Commercial Operator as defined by FAR 1.1
- G. Flight outside of the Continental US is prohibited except as follows: flights to Canada and the Bahamas are permitted only by prior approval of the Board of Directors. The cost of required additional insurance coverage, FCC Aircraft Radio Station Licenses, Customs stickers, or any other fees must be paid by the member and that member will not be reimbursed by the club.

- H. The Club carries non-commercial liability insurance. See Schedule A for coverage and important limitations.

VI. Instruction and Proficiency

- A. Members may only receive flight instruction [including BFRs, IPCs and club checkrides] in Club aircraft from instructors who are members. The following exceptions apply:
 - 1. FAA sanctioned Wings Weekend
 - 2. By a vote of the Board, a member may be granted permission to receive instruction by non-member instructors who are employed by an established flight training organization [e.g., accelerated IFR course].
- B. Members must be checked out in EACH of the Club's aircraft they intend to fly by a Club instructor. All spring and fall checkouts will be conducted by member instructors only.
- C. Once a member is checked out and proficient in the operation of a particular aircraft, they may have copies of keys made for that aircraft. The keys are considered Club property and are to be surrendered upon suspension or resignation from the Club.
- D. In order to maintain pilot proficiency, the Fox Flying Club requires semi-annual check rides for each pilot and student pilot with a Club-approved flight instructor.
 - 1. As a result of the flight a Check Ride Card signed and dated by the instructor must be submitted to the Treasurer during the periods of February 1 to April 30 and August 1 to October 31.
 - 2. Flight without a current Check Ride card will result in a fine for each incident for the member.
- E. Members who are student pilots are limited to flying:
 - 1. Board approved instructor, or
 - 2. On an instructor-approved solo, or
 - 3. With an FAA examiner, or
 - 4. With a properly licensed member of the Club (who is occupying the left front seat)
- F. Student members shall not make overnight solo flights under any circumstances unless a return to DPA has been delayed by weather.
- G. Any members desiring to be Pilot In Command of or as a CFI in the Piper Arrow must meet any time, training and currency requirements as specified in

Schedule A and be signed off after a check ride with a Club instructor. **Violation of the requirements will be cause for expulsion from the Club.**

- H. A spouse, son or daughter of a regular member can take up to 10 hours of flight instruction (in the right seat) with an Active Member CFI for the purpose of completing a Club sponsored pinch-hitter course.

VII. Flight Operations

- A. Do not leave cars in tiedown areas or in the hangar.
- B. Starting precautions:
 - 1. The Club Piper aircraft have 12 VDC systems and are equipped with an external ground power plug that may be used in conjunction with a car battery for engine starting. Consult the appropriate aircraft manual before attempting to start the engine by jumping -- some aircraft can incur damage to the electrical system if the starting procedure is not strictly followed.
 - 2. Cessna N773SP and N62681 have a 24 VDC system, which CANNOT be jump started with a car battery.
 - 3. **Hand propping an aircraft in an attempt to start the engine is prohibited. Any member engaging in this activity is subject to immediate dismissal from the Club.**
- C. Each aircraft contains a logbook for recording flight tach time and time of day.
 - 1. The pilot is responsible for the accurate logging of their flight for accounting purposes (tach time).
 - 2. Fuel and oil added, along with any other information that might be of interest to subsequent pilots should be noted.
 - 3. Completed log sheets must be removed from the aircraft by any member who intends to return from a cross-country flight on or after the 25th of the month. Failure to leave the log sheets in the line box or the hangar so the Treasurer can pick them up will result in a fine.
- D. All aircraft maintenance is done by approved mechanics or qualified pilots under FAA regulations.
 - 1. Any item requiring repairs is to be written up in the aircraft flight log in the aircraft and called in to the Crew Chief or Maintenance Officer. If possible, it should also be communicated via the internet Maintenance Squawk System.

2. If it is of a serious or safety related issue an immediate call should be made to the Crew Chief, Maintenance Officer or member of the Board of Directors. Also notify subsequent pilots.
3. Club members are not authorized to take an aircraft out of service without approval from a Club Officer unless directly related to its safety or airworthiness.

E. Shutdown and tiedown:

1. After every flight the aircraft is to be fueled to either the top (winter - during standard time period) or tabs (summer - during daylight savings time period). Note: do not over fill when topping off particularly if aircraft is stored in heated hanger. Further, because N81898 is normally parked in the heated hanger and more importantly because of its extended range fuel tanks, N81898 should only be fueled to the tabs to avoid unnecessary filling of the large fuel tanks.
2. A supply of extra oil (at least 2 quarts) is to be maintained in the baggage compartment. Extra oil is in the line box or the hangar. Note oil usage in the log. Failure to leave appropriate quantity of oil in aircraft may result in a fine.
3. All aircraft should be hand positioned in their parking places to avoid damage to either the aircraft or those aircraft parked near them.
4. Remove trash, personal belongings and be sure the interior is in a clean and orderly condition.
5. Leave just enough slack in tiedown chains to allow them to be removed by the next pilot.
6. After flight, wipe down the cowling and leading edges to keep them clean.
7. Leave the propellers in the vertical position on all outside aircraft. During the winter this will minimize the damage of water freezing in the spinner area and during the summer, it will lessen the use of the propellers by birds.
8. Install the cowl plugs in all aircraft parked outside or in an unheated hangar. This is to lessen the chance of bird nests being built in the engine compartment.

F. Winter precautions

1. The preheater stored in the line box should be used prior to engine starting at temperatures below 32° F.
 - a. Preheating is mandatory when temperatures are 32° F or lower. Failure to preheat the engine will result in a fine.

- b. The preheater requires 12 VDC. A control for the automatic gates is in the line box so that a car can be brought to the aircraft to power the preheater.
 - c. 773SP heater. During winter months (standard time) at the end of operation plug in heater and follow instruction placard located with aircraft (or in the hangar).
2. The electric trim should not be used on the Pipers in the winter months due to the extra strain placed on the trim motor.

Schedule A

A. Fees, Dues, and Hourly Rates (see § III. A.4)

Membership Fee (Upon Joining)	\$350
Monthly Dues	
Active Member	\$85
Associate Member (Family, CFI-Only, etc.) and	\$7
Inactive Member	\$7

Hourly Wet (tach) Rates for Club Aircraft:

Number	Description	Minimum Pilot Rating	Hourly Rate
N62681	1982 Cessna C172P	Private	\$90.00
N773SP	2000 Cessna C172SP	Private	\$102.00
N81898	1980 Piper Arrow IV	Private	\$114.00

Note: Hourly rates are based on a base fuel price of \$3.76/gal. Rates are adjusted on a quarterly basis at Board's discretion and/or when current fuel price differs from the base fuel price by more than \$1.00/gallon.

B. Insurance (see § V. H)

Type of Liability Insurance	Non-commercial
-----------------------------	----------------

Note: The Club's non-commercial policy does not cover CFI's or CFII's during the time they are instructing for compensation.

Coverage

per accident	\$1,000,000
per person	\$100,000
medical each person	\$5,000

Deductible

In-motion	\$1,000
Non-motion	\$250

Note: Member is responsible for deductible amounts.

C. Piper Arrow Requirements (see § VI.G)

Logged time (hours) Before Flying Without a CFI		
Total	Retractable	Required in Piper Arrow
125 or more	10 or more	10 or more

Schedule B

A. Fines for the violation of the Rules (see § III. B and C)

1. Flying without a valid check ride card	\$10
2. Failing to properly <i>shut down, fuel, clean and secure aircraft or lock hangar</i>	\$10
3. Parking private vehicle in Club hangar	\$10
4. Failure to pay in full monies due by the 25th of the month in which a Club invoice is mailed (e.g., bill mailed Jan 10 is due at FFC P.O. Box on Jan 25).	\$10
5. NSF Check (first infraction)	\$25
6. NSF Check (second occurrence)	Suspension of flying privileges
7. Failure to leave aircraft log sheets in hangar or line box on the 25th day of the month	\$5
8. Failure to cancel within 30 minutes after scheduled start or fly during scheduled time	One hour's flying time
9. Failure to meet daily minimum	Difference between time flown and minimum
10. Failure to participate in the 3 mandatory plane washes during the year. These include spring and fall plane washes and the cleaning of each plane after its annual. Participation is required in at least one post-annual cleanings.	Forfeiture of \$10 credit per plane wash

B. Credits (see § III. D)

1. Applicable to Monthly Invoice and are Non-transferable.

a. Attend Board or Member meeting [limit of one credit per month]	\$5/meeting
b. Participate in plane wash/cleaning event	\$10/event
c. Perform/assist in owner maintenance [oil change, etc]	\$10/event

2. Other

The Club acknowledges the benefits gained from the FAA "[Wings Program](#)". Any member who receives a "Wings" award level from the FAA will receive a flying credit of \$50.00
